Portfolio: abdulrahman-afify-portfolio.vercel.app **Location:** Oman, Muscat (Al Khoudh) | **Nationality:** Egyptian

SUMMARY

Senior Mobile Engineer with 9+ years building high-performance iOS and Android apps (React Native, React, TypeScript). Scaled products to **2M+ users**, achieved up to **99.5%** crash-free sessions, and shipped **50+ apps** across fintech, e-commerce, healthcare, and telecom.

SKILLS & TOOLS

Languages: TypeScript, JavaScript (ES6+), Swift, Kotlin, SQL
Mobile & Web: React Native, Expo, React.js, Next.js, Redux/Toolkit, MobX, Zustand, Context API, React Query, React Navigation, React Hook Form, Unistyles, GraphQL/REST
Backend & Infra: Node.js, Firebase, Supabase, CI/CD, GitHub Actions, Azure DevOps, Fastlane, EAS/CodePush, Liferay
Quality: Jest, Detox, Sentry, Instabug, performance profiling
Growth & Ops: CleverTap, Segment, AppsFlyer, Adjust, Datadog, Amplitude
Payments & Commerce: Apple Pay, Google Pay, Stripe, MyFatoorah, Payfort, Paymob, in-app purchases
Leadership: CTO/engineering leadership, architecture & delivery ownership, Scrum/Agile, stakeholder communication
Languages (spoken): Arabic (Native), English (Professional working proficiency)

Experience

iHorizons (Ooredoo Qatar)
Senior React Native Developer

June 2024 – Present
Qatar (Remote)

- Drive **React Native** delivery and production ownership across Ooredoo Qatar’s consumer app (**2.5M+ users**) and **Ooredoo Business** (**10,000+** enterprise users)
- Improved app performance by **35%** across the Ooredoo Qatar consumer and business apps
- Built **Azure DevOps CI/CD** on self-hosted runners; integrated **Liferay** and maintained shared packages across consumer & business apps
- Implemented **Apple Pay**, **Google Pay**, and **Ooredoo Money** with hardened REST integrations and **Firebase** analytics
- **Live project links:** **Ooredoo Qatar** (iOS, Android); **Ooredoo Business** (iOS, Android)

Vodafone Oman
Senior Mobile Engineer / Mobile Technical Lead (Contractor)

June 2025 – June 2026
Muscat, Oman

- Led the migration of Vodafone Oman’s live iOS and Android application from native stacks to **React Native** and **Expo**, providing technical direction across architecture, implementation, code quality, and release delivery
- Built marketplace hub (categories, bundles, checkout) on **TypeScript**, **Zustand**, and **TanStack Query**; added **Supabase** auth, **EAS** OTA updates, Expo notifications, and cart-reminder flows

Blockchain Intelligence Group Inc.*Senior Mobile Engineer (Contractor)*

June 2022 – March 2025

Canada (Remote)

- Architected **React Native/React.js** mobile systems supporting **50,000+ daily** on-chain interactions; sustained **99.5%** crash-free rate for **15,000+ MAU** with **Sentry** and **Firebase**
- Built a **monorepo** with shared business logic and centralized **Redux Toolkit** store management across web and mobile, eliminating redundant code and accelerating cross-platform delivery
- Integrated **Stripe**, **Segment**, camera/IAP flows, and **CI/CD** pipelines for **TokenEyes** across iOS, Android, and web
- **Live project links: TokenEyes** — iOS, Android, Web portal

Homzmart*Mobile Team Lead*

June 2020 – January 2023

Cairo, Egypt (On-site)

- Built **React Native** app from scratch on **GraphQL**, **Redux Toolkit**, and **Magento API**; scaled to **2,000,000+ users** with **40+** features/year and **+40%** screen performance
- Raised crash-free sessions to **98.7%** with **Detox/Jest**; **-15%** cart abandonment via checkout UX and **Payfort/Paymob/Vodafone Cash** payment integrations
- Owned growth and ops stack — **AppsFlyer**, **Adjust**, **Mixpanel**, **Instabug/Sentry**, and **HMS Push Kit** — plus **CodePush** and CI/CD release pipelines
- **Live project links: iOS, Android, Huawei AppGallery**

Calo Inc*Senior Mobile Engineer (Contractor)*

June 2022 – November 2022

Bahrain (Remote)

- Shipped **12** major releases in 6 months for a **500,000+ MAU** meal-delivery app on **React Native/Zustand**; cut API latency **-35%** via **GraphQL** query optimization
- **Live project links: iOS, Android**

Faheem*Mobile Team Lead (Contractor)*

July 2021 – April 2022

Saudi Arabia (Remote)

- Managed **4** engineers shipping **8** releases in 10 months on **React Native/Next.js**; cut feature cycle **3 wk** → **2.4 wk**, raised team quality **65%** → **88%** via **Fastlane**, **CodePush**, and **App Center** CI/CD
- **Live project links: Faheem** — iOS, Android, Web

*Concurrent contract, advisory & freelance engagements***Tamkeen Technology***Mobile Architect (Contractor)*

January 2023 – Present

Saudi Arabia (Remote)

- Scaled **Musaned** from **50,000 to 200,000+** downloads (~300% growth) at **99.5%** crash-free on **React Native**, **TypeScript**, and **Redux Toolkit**
- Led a **5-person** pod; cut bug resolution time by **40%** and improved cold start by **28%** using **App Center**, **CodePush** OTA, and **Firebase** analytics/messaging
- **Live project links: Musaned** — iOS, Android

Al-Manarh

Chief Technology Officer (CTO) (Part-time / Advisory)

June 2024 – Present

Remote

- Lead technology and engineering — architecture, delivery, and team management across the product portfolio and client engagements (Ra3d, Twerlo, and others)
- Shipped end-to-end **React Native/Expo** apps and **React/Supabase** dashboards (**SoloGusto**, **CarVentru**) on **TypeScript**, **Zustand**, and **TanStack Query**
- Managed dedicated mobile squads for **Ra3d** and **Twerlo**; integrated **Firebase**, **Google Sign-In**, maps/geolocation, payments (**MyFatoorah**), and **Amplitude/Adjust** analytics
- **Live project links**: **Wujhat** (iOS, Android); **Jewelers** (iOS, Android); **Azeer** (iOS)

Independent

Mobile Engineer (Freelance, project-based)

December 2019 – Present

Remote

- **15+ projects** on **React Native/TypeScript** across global clients (**300,000+** combined reach); routinely **15%+ faster** than projected timelines
- Engaged through **Proxify** since September 2023; direct client work before that. Representative engagements — **Canoo**, **Speetar Health**, **Tawal (Sufara)**, **PikaDo**, **Alfaris Rent A Car** — using **GraphQL**, **Zustand**, **CodePush**, **Contentful**, and **Firebase**
- **Live project links**: **Canoo** (iOS, Android); **Speetar Health** (iOS, Android); **Tawal (Sufara)** (iOS, Web portal); **PikaDo** (iOS, Android); **Alfaris Rent A Car** (iOS, Android)

Earlier roles

UpperMedic — React Native Developer

October 2019 – June 2020

Delivered healthcare app **0** → **5,000+** downloads in 3 months on **React Native**, **Redux Toolkit**, and **Firebase**; built custom video streaming pipeline (**500+** hrs/mo)

Sahl Solution — React Native Developer

January 2019 – September 2019

Shipped **7 apps** on **React Native/Redux** with **REST/GraphQL** backends (**WooCommerce**, **Magento**); integrated **CodePush**, **OneSignal**, and **Firebase**. **Live: Naqla** — iOS, Android

RedApp — MERN Stack Developer

September 2017 – December 2018

Built full-stack **MERN** platform (**React Native**, **Node.js**, **SQL**) with admin UI and client REST/payment integrations; reduced server latency via backend tuning

Education

Helwan University — B.S. Computer Science & Information Systems

Cairo, Egypt | 2017

Certifications & Awards

Best Employee Award — TAWAL Company, 2023
